Model Information				
Name	ARUNJW_TESTNL			
Created By	STUMPA			
Changed By	STUMPA			
Trained on	6/17/03 12:00 PM			
Source Server	Q2I			
Mining Method	SAP Regression			
Model Field:				
Name	Description	Description	Field Type	Data Type
JW_ATTR	Customer Attractivity	331	Categorical	String
JW_IND	Industry	332	Categorical	String
JW_PURP	Purchase Planned	333	Categorical	String
JW_RAND	Random Value	334	Categorical	Double
JW_SALVIS	Sales Representative Requeste	335	Categorical	String
JW_SIZE	Company Size	336	Categorical	Integer
JW_VOL2	Volume 2	337	Continuous	Double
